

Guideline for the MOTIVATION LETTER

An important part of your application to our MSc programme is – beside your certificates – the motivation letter. Please stick to the following guideline and answer all questions, otherwise your application cannot be considered.

Guideline:

1. Motivation to apply in relation to your previous experiences/education (half a page)
2. Motivation to apply in relation to your future aspirations / preferred occupation (half a page)
3. Name three main benefits you expect to gain from the M.Sc. programme (list)
4. Name three main contributions you could make to the M.Sc. programme (list)
5. Five arguments/personal characteristics, why you should be selected according to your own view. (list)

The motivation letter as a whole should be no longer than 2 pages.
